Minor frustrations around unclear deliverables from my supervisor in the first few months. Overall very satisfied with the experience.

What about your experience thus far has been the most...surprising?

The sophistication of Nairobi. It is a genuinely global city with world class restaurants, infrastructure, and talent.

What about your experience thus far has been the most...challenging?

What are the top 3 things you miss the most from your home country or the U.S.?

- Home cooked food from my family - Close friends and familiar social environment - Reliable infrastructure and predictability

What are the top 3 things about life in your host country that beat out life in your home country or the U.S.?

- The weather - The sense of community and warmth of people - The depth of experience and personal growth

Several times a week

PiAf's Pre-Departure Orientation was sufficient in preparing me to transition into my fellowship.

Somewhat Agree

Please briefly explain your response about Orientation.

The orientation was helpful for general preparation but some country specific information about visas and daily life would have been valuable.

Is there anything in particular that PiAf could cover at orientation that would have better prepared you for your fellowship post?

More specific visa guidance for each country would have reduced stress significantly. A country specific guidebook written by past fellows would be extremely helpful.

Are you receiving sufficient support, materials and information from the Princeton in Africa office?

Yes, the team has been responsive and supportive throughout.

Programming Ideas

A structured peer mentorship system connecting fellows in similar countries or sectors. More opportunities for fellows to share experiences across the cohort.
